

## Guardian & Conservator Services

### ***Quick Facts:***

- An incapacitated person is someone who, for a variety of reasons, is incapable of making minimally adequate decisions about medical treatment or everyday life and as a result their health or safety are in jeopardy
- A guardian is an individual or organization named by the Court to act as a surrogate decision maker for an incapacitated person
- A conservator is a person appointed by the court to manage and protect the estate (money and property) of an incapacitated person

The Office of Public Guardian is the State agency responsible for providing public guardianship and conservatorship services to incapacitated adults who do not have appropriate family or friends to assist/serve them. The primary purpose of guardianship is to assure the safety and well-being of an incapacitated adult.

A guardian is appointed by the court to make decisions for another adult (the “ward”) about their medical care, living arrangements and other matters.

A conservator is appointed by the court to make important financial decisions for an incapacitated adult.
